

# PVGreenCard

Powered by **SAPVIA**  
South African Photovoltaic Industry Association

## What is a PV GreenCard?

PV GreenCard is SAPVIA's quality assurance programme. The programme has a skills development component and promotes safe and quality Solar PV installations.

## Why should I become a PV GreenCard installer?

- Be recognised as an accredited Solar PV installation company recommended by SAPVIA – **additional brand and marketing value for your company.**
- Declare your compliance with applicable standards – **giving you the competitive edge.**
- Tender for projects that recommend PV GreenCard as a requirement.
- **Gain easier access to capital** by showing investors that your installations abide by a national guideline.
- Have **access** to the industry latest technological advancement and international best practise on installations.
- Showcase your commitment to industry by empowering system owners with **complete documentation of the system components and installation procedures.**
- **Monitor and track all your installations** on your PV GreenCard profile.

## How do I become a PV GreenCard accredited company?

Go to [www.pvgreencard.co.za](http://www.pvgreencard.co.za) and register (top right corner)

### Complete Company Information

Attach your valid and updated DoEL Electrical Contractor's registration document and your PV GreenCard assessment certificate.

Your company will be listed under the PV GreenCard list of accredited companies on our website.

Your company will only be recommended once you have registered installers.
